<b>授業の目標 Course Objectives</b>			
<p>This course is open to all master's and professional degree students and is offered as one of the Pre-program Courses for students who intend to enroll in the Nitobe College Honors Program: Graduate Curriculum. "Global Practical Course I" held prior to this course is a prerequisite. Completing "Global Practical Course I" and this course is one of the requirements for enrollment in the Nitobe College Honors Program: Graduate Curriculum.</p> <p>(Taking this course does not oblige the students to apply for enrollment in Nitobe College)</p> <p>Nitobe College Honors Program: Graduate Curriculum aims to develop students into professionals with “3+1 Competencies” (Ability for Sustainable Personal Development; Team Organization &amp; Management Skills; Capacity for Knowledge Sharing &amp; Application for Social Benefit; and Professional Ethics), which are considered essential to thrive in a globalizing world. As a preparatory step toward this goal, the students participate in collaborative projects with peers with different intellectual concerns and expertise in this course.</p> <p>In this course, the students are to be trained in project management through collaboration in team projects, using knowledge and skills they learned in “Global Practical Course I.”</p>			
<b>到達目標 Course Goals</b>			
<p>By completing this course, students will be able to:</p> <ul style="list-style-type: none"> <li>- Understand the significance of project management;</li> <li>- Learn the basic knowledge and skills in project management and apply them for practical purposes, including their graduate research;</li> <li>- Contribute to project-based teamwork, using the knowledge and skills they learned in “Global Practical Course I.”</li> </ul>			

## 授業計画 Course Schedule

Week 1: Course Orientation / Review of Learning Outcome from “Global Practical Course I”/Professionalism & Professional Ethics  
- The goal and objectives of the course, class formats and basic rules, evaluation/grading policies, academic calendar and class schedule, etc., are explained.  
- Student set their learning goal for this term and discuss how that goal can be achieved based on the review of the learning outcomes from “Global Practical Course I.”

Week 2-8: Project Management: Basics and Practice

- Students learn the idea of project management through guidance lectures and group discussions.  
- Students understand basic concepts, such as prototyping, Gantt chart, WBS, and risk management.  
- Based on the knowledge above, students work in groups on practical exercises to make a simple prototype of a product assigned by lecturers (as required by clients). In so doing, they are to record steps in the process of prototyping, and in concluding, they present the project to the clients following the consequence of stereotyping.

The schedule for Tuesday class in AY2024 is as follows;

Every Tuesday from June 11 to July 30, 2024, 5th and 6th periods

The first session also serves as the final session of "Global Practical Course I.”

The schedule for Thursday class in AY2024 is as follows;

Every Thursday from June 13 to August 1, 2024, 5th and 6th periods

The first session also serves as the final session of "Global Practical Course I.”

## 準備学習(予習・復習)等の内容と分量 Homework

After each class, students are required to submit their learning outcomes, comments on class content, and self-evaluation through the Nitobe Portfolio (NPF).

## 成績評価の基準と方法 Grading System

The evaluation items are as follows; Active participation in class, contribution to team learning, presentation about the project, learning outcomes and self-evaluation, comments on class content, and self-evaluation of the "3+1 Competencies" as well as final Self-evaluation Report required to submit later to identify/define their learning outcomes and review and revise future learning goals. If new evaluation items are added, explanations will be provided as necessary.
