What is Nitobe College?

Nitobe College is a program designed to equip students with the mindset and skills necessary to thrive in a global society, in addition to their specialized education and research at various faculties and graduate schools.

This interdisciplinary education program is aimed at students of Hokkaido University.

Challenges of Nitobe College in Developing Global Leaders

Nitobe College is based on the fundamental principles of Hokkaido University:

“Frontier Spirit”, “Global Perspectives”, “All-Round Education”, and “Practical Learning”

Based on the spirit to be learned from Dr. Inazo Nitobe, we aim to develop global leaders through interdisciplinary educational programs.

“Cultivating an international spirit”

to serve as a bridge between countries and regions

“Acquiring a broad general education”

in addition to in-depth professional exploration

“Fulfilling noblesse oblige”

an obligation associated with social leaders

(Dr. Inazo Nitobe Memorial Monument)

About Nitobe College

Nitobe College has been highly regarded since its inception, standing out in our university's educational offerings.

In 2013, we initiated “Nitobe College” for undergraduate students, and in 2015, “Nitobe School” for graduate students. After integrating both, we reinforced the program as the new “Nitobe College” from 2024, offering a unified program for both undergraduate and graduate students. Additionally, with the support of alumni and others, the “Fellows” (undergraduate) and “Mentors” (graduate) of Nitobe College provide global career support, nurturing deep human connections.

● Establishment of Autonomous Individuals and Enhancement of Specialized Abilities through Overseas Study (Undergraduate)

We necessitate overseas study to establish autonomous individuals with high ethical standards and rich humanity, and to acquire logical thinking and high expertise. [Scholarship programs support overseas study.]

● Provision of a Microcosm of International Society and Cross-Disciplinary Learning Environment (Graduate)

With a high proportion of international students, we realize a microcosm of international society in the classroom. Through collaborative learning with students from different specialized fields, we embrace diversity and acquire the ability to transcend specialized domains. [All classes and discussions are conducted in English.]

● Career Support by Fellows and Mentors

We offer courses involving “Fellows” (undergraduate) and “Mentors” (graduate) selected from alumni with extensive international experience. Through encounters with Fellows and Mentors who serve as role models, students have opportunities to reflect on the meaning of life and the significance of studying at university.
